PRIVACY NOTICE - DIRECT CARE

How Princes Gardens Surgery uses your information to provide you with healthcare

This practice keeps medical records confidential and complies with the General Data Protection Regulation. We hold your medical record so that we can provide you with safe care and treatment. We will also use your information so that this practice can check and review the quality of the care we provide. This helps us to improve our services to you.

- We will share relevant information from your medical record with other health or social care staff or organisations when they provide you with care. For example, your GP will share information when they refer you to a specialist in a hospital. Or your GP will send details about your prescription to your chosen pharmacy.
- For more information on how we share your information with organisations who are directly involved in your care can be found here: The Border Practice GDPR document contains extensive information.
- Healthcare staff working in A&E and out of hours care will also have access to your information. For example, it is important that staff who are treating you in an emergency know if you have any allergic reactions. This will involve the use of your Summary Care Record. For more information see: <https://digital.nhs.uk/summarycare-records> or alternatively speak to your practice.
- You have the right to object to information being shared for your own care. Please speak to the practice if you wish to object. You also have the right to have any mistakes or errors corrected.

“How the NHS and care services use your information

Princes Gardens Surgery is one of many organisations working in the health and care system to improve care for patients and the public.

Whenever you use a health or care service, such as attending Accident & Emergency or using Community Care services, important information about you is collected in a patient record for that service. Collecting this information helps to ensure you get the best possible care and treatment.

The information collected about you when you use these services can also be used and provided to other organisations for purposes beyond your individual care, for instance to help with:

- improving the quality and standards of care provided
- research into the development of new treatments
- preventing illness and diseases
- monitoring safety
- planning services

This may only take place when there is a clear legal basis to use this information. All these uses help to provide better health and care for you, your family and future generations. Confidential patient information about your health and care is **only used** like this where allowed by law.

Most of the time, anonymised data is used for research and planning so that you cannot be identified in which case your confidential patient information isn't needed.

You have a choice about whether you want your confidential patient information to be used in this way. If you are happy with this use of information you do not need to do anything. If you do choose to opt out your confidential patient information will still be used to support your individual care.

To find out more or to register your choice to opt out, please visit www.nhs.uk/your-nhs-data-matters. On this web page you will:

- See what is meant by confidential patient information
- Find examples of when confidential patient information is used for individual care and examples of when it is used for purposes beyond individual care
- Find out more about the benefits of sharing data
- Understand more about who uses the data
- Find out how your data is protected
- Be able to access the system to view, set or change your opt-out setting
- Find the contact telephone number if you want to know any more or to set/change your opt-out by phone
- See the situations where the opt-out will not apply

You can also find out more about how patient information is used at:

<https://www.hra.nhs.uk/information-about-patients/> (which covers health and care research); and
<https://understandingpatientdata.org.uk/what-you-need-know> (which covers how and why patient information is used, the safeguards and how decisions are made)

You can change your mind about your choice at any time.

Data being used or shared for purposes beyond individual care does not include your data being shared with insurance companies or used for marketing purposes and data would only be used in this way with your specific agreement.

Health and care organisations have until 2020 to put systems and processes in place so they can be compliant with the national data opt-out and apply your choice to any confidential patient information they use or share for purposes beyond your individual care. Our organisation 'is / is not currently' compliant with the national data opt-out policy. "
